

Quiz Nights

Attract customers to your venue and keep them there. The quiz night is designed to retain customers over a three hour period. Hour 1 Promotes the quiz, inviting customers to take part.

While hour 2 sees the quiz taking place over the next 90 minutes with the final half hour devoted to giving out the answers and prizes to the winners.

The quiz starts off relatively easy in order to get the customers interested and then continues in order to keep your customers in your venue until close.
